## Description

The major proteolytic product p15 BID allows the release of cytochrome c (By similarity). Isoform 1, isoform 2 and isoform 4 induce ICE-like proteases and apoptosis. Isoform 3 does not induce apoptosis. Counters the protective effect of Bcl-2. [UniProt]

## Application Notes

Titration of the Bid antibody may be required due to differences in protocols and secondary/substrate sensitivity.

## Immunogen

A portion of amino acids 68-103 from the human protein (BH3 domain) was used as the immunogen for this Bid antibody.

## Storage

Aliquot the Bid antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
