## Description

Neuroblastoma-amplified sequence protein is involved in Golgi-to-endoplasmic reticulum (ER) retrograde transport; the function is proposed to depend on its association in the NRZ complex which is believed to play a role in SNARE assembly at the ER. [UniProt]

## Application Notes

Titration of the NBAS antibody may be required due to differences in protocols and substrate sensitivity.

## **Immunogen**

A portion of amino acids 628-661 from the human protein was used as the immunogen for the NBAS antibody.

## **Storage**

Aliquot the NBAS antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
