Description

Formimidoyltransferase-cyclodeaminase (FTCD), also called '58K Golgi protein' binds and promotes bundling of vimentin filaments originating from the Golgi.

Application Notes

Optimal dilution of the 58K Golgi protein antibody should be determined by the researcher.

Immunogen

A synthetic peptide specific to human 58K Golgi protein / FTCD was used as the immunogen for the 58K Golgi protein antibody.

Storage

Store the 58K Golgi protein antibody at -20oC.
