Western blot testing of (1) H2A recombinant protein and (2) acid extracts of human HeLa cell lysate using recombinant Acetyl-Histone H2A.X antibody at 0.01 ug/ml.

Description

This antibody reacts to Histone H2A.X acetylated at Lysine 9 (K9ac). No cross reactivity with non-modified Lysine 9 or other acetylated Lysines in histone H2A.

Application Notes

The stated application concentrations are suggested starting points. Titration of the recombinant Acetyl-Histone H2A.X antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A peptide corresponding to acetyl-Histone H2A.X (Lys9) was used as the immunogen for the Acetyl-Histone H2A.X antibody.

Storage

Store the recombinant Acetyl-Histone H2A.X antibody at -20oC.
