Limitations	This ANGPTL6 antibody is available for research use only.

Western blot analysis of ANGPTL6 antibody and K562 lysate.

Description

ANGPTL6 may play a role in the wound healing process. It may promote epidermal proliferation, remodeling and regeneration and may promote the chemotactic activity of endothelial cells and induce neovascularization. ANGPTL6 may counteract high-fat diet-induced obesity and related insulin resistance through increased energy expenditure.

Application Notes

Titration of the ANGPTL6 antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A portion of amino acids 206-236 from the human protein was used as the immunogen for this ANGPTL6 antibody.

Storage

Aliquot the ANGPTL6 antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
