Anti-His Tag Antibody (F52067)

Catalog No.	Formulation	Size
F52067-0.4ML	In 1X PBS, pH 7.4, with 0.09% sodium azide	0.4 ml
F52067-0.08ML	In 1X PBS, pH 7.4, with 0.09% sodium azide	0.08 ml

Bulk quote request

Availability	1-3 business days
Species Reactivity	NA
Format	Purified
Host	Rabbit
Clonality	Polyclonal (rabbit origin)
Isotype	Rabbit IgG
Purity	Purified
Applications	Western blot: 1:1000
Limitations	This anti-His Tag antibody is available for research use only.

Western blot analysis of anti-His Tag antibody and a tagged recombinant protein.

Description

Epitope tags consisting of short sequences recognized by well-characterized monoclonal antibodies have been widely used in the study of protein expression in various systems. 6xHIS-tagged fusion proteins are easily purified from cell lysates by affinity chromatography using Nickel-Sepharose resin.

To learn more about detecting His-tagged recombinant proteins, explore our His Tag Antibody / Polyhistidine Tag Antibody page featuring recombinant rabbit monoclonal clone RM146.

Application Notes

Titration of the anti-His Tag antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

HHHHHH peptide was used as the immunogen for the anti-His Tag antibody.

Storage

Aliquot the anti-His Tag antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
