Description

ATP11C is an enzyme that in humans is encoded by the ATP11C gene. This gene is mapped to Xq27.1.

Application Notes

Optimal dilution of the ATP11C antibody should be determined by the researcher.

Immunogen

Amino acids QNHEIELTKVHVERNAMDGYRTLCAVAFKEIAPDDYER from the human protein were used as the immunogen for the ATP11C antibody.

Storage

After reconstitution, the ATP11C antibody can be stored for up to one month at 4oC. For long-term, aliquot and store at -20oC. Avoid repeated freezing and thawing.
