

## Biotinylated HA-Tag Antibody [clone RM305] (R20304BTN)

Catalog No.	Formulation	Size
R20304BTN-50UG	1 mg/ml in PBS with 50% glycerol, 1% BSA and 0.09% sodium azide	50 ug

Recombinant **RABBIT MONOCLONAL**

[Bulk quote request](#)

Availability	1-3 business days
Species Reactivity	N/A
Format	Biotin Conjugate
Host	Rabbit
Clonality	Recombinant Rabbit Monoclonal
Isotype	Rabbit IgG
Clone Name	RM305
Purity	Protein A purified from animal origin-free supernatant
Applications	Western Blot : 0.1ug/ml-1ug/ml Immunoprecipitation : 0.5ug/ml-2ug/ml Immunocytochemistry 0.1ug/ml-1ug/ml : Immunohistochemistry (FFPE) : 0.01ug/ml-0.5ug/ml
Limitations	This recombinant biotinylated HA-Tag antibody is available for research use only.

Western blot testing of lysate from human 293T cells transfected with HA-tagged KRas protein with biotinylated HA-Tag antibody at 0.1ug/ml.

IHC staining of formalin fixed and paraffin embedded human LNCaP cells overexpressing HA-tag Bag1 protein, using biotinylated HA-Tag antibody at 0.01 ug/ml.

## Description

This antibody reacts to recombinant proteins containing a HA-Tag fused to either the amino or carboxy terminus. No cross reactivity with other endogenous protein.

## Application Notes

The stated application concentrations are suggested starting points. Titration of the recombinant biotinylated HA-Tag antibody may be required due to differences in protocols and secondary/substrate sensitivity.

## Immunogen

A peptide corresponding to HA-tag (Human influenza hemagglutinin amino acids 98-106) was used as the immunogen for the biotinylated HA-Tag antibody.

## Storage

Store the recombinant biotinylated HA-Tag antibody at -20oC.
