<b>Availability</b>	1-3 business days
<b>Species Reactivity</b>	Human, Mouse
<b>Format</b>	Purified
<b>Host</b>	Rabbit
<b>Clonality</b>	Polyclonal (rabbit origin)
<b>Isotype</b>	Rabbit Ig
<b>Purity</b>	Purified
<b>UniProt</b>	O60238
<b>Applications</b>	IHC (Paraffin) : 1:50-1:100
<b>Limitations</b>	This BNIP3L antibody is available for research use only.

IHC analysis of FFPE human hepatocarcinoma tissue stained with the BNIP3L antibody

### Description

BNIP3L is a member of the BCL2/adenovirus E1B 19 kd-interacting protein (BNIP) family. It interacts with the E1B 19 kDa protein which is responsible for the protection of virally-induced cell death, as well as E1B 19 kDa-like sequences of BCL2, also an apoptotic protector. The protein encoded by this gene is a functional homolog of BNIP3, a proapoptotic protein. This protein may function simultaneously with BNIP3 and may play a role in tumor suppression.

### Application Notes

Titration of the BNIP3L antibody may be required due to differences in protocols and secondary/substrate sensitivity.

## **Immunogen**

A portion of amino acids 122-152 from the human protein (BH3 domain) was used as the immunogen for this BNIP3L antibody.

## **Storage**

Aliquot the BNIP3L antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
