

## CD28 Antibody [clone CB28] (V2051CF488)

Catalog No.	Formulation	Size
V2051CF488-100T	500 ul at 0.1 mg/ml with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide	100 Tests

**Bulk quote request**

<b>Availability</b>	1-3 business days
<b>Species Reactivity</b>	Human
<b>Format</b>	CF488 Conjugate
<b>Host</b>	Mouse
<b>Clonality</b>	Monoclonal (mouse origin)
<b>Isotype</b>	Mouse IgG1, kappa
<b>Clone Name</b>	CB28
<b>Purity</b>	Protein G affinity chromatography
<b>Applications</b>	Flow Cytometry : 1-2ug/million cells Immunofluorescence : 1-3ug/ml
<b>Limitations</b>	This CD28 antibody is available for research use only.

Flow cytometry staining of PFA-fixed human Jukat cells with unlabeled CD28 antibody (clone CB28); Red=isotype control, Blue= CD28 antibody.

### Description

Recognizes a glycoprotein of 44-88kDa, which is identified as CD28. It is the critical T-cell co-stimulatory receptor which provides to the cell the important second activation signal by binding CD80 and CD86 that are expressed by antigen presenting cells. Besides its co-stimulation role, CD28 functions in preventing T-cells from anergic hyporesponsive state or from undergoing premature apoptotic cell death. CD28 is also expressed on human fetal NK cells and some NK cell lines, whereas on murine NK cells the CD28 expression is much broader.

### Application Notes

Optimal dilution of the CD28 antibody should be determined by the researcher.

## Immunogen

Recombinant human protein was used as the immunogen for this CD28 antibody.

## Storage

Store the CD28 antibody at 2-8oC, protected from light.
