## Description

May play an important role in the regulation of lymphoma cell growth. Interacts with a 16-kDa Leu-13 protein to form a complex possibly involved in signal transduction. May act as the viral receptor for HCV.

## Application Notes

The stated application concentrations are suggested starting points. Titration of the CD81 antibody may be required due to differences in protocols and secondary/substrate sensitivity.

## Immunogen

Recombinant human protein was used as the immunogen for the CD81 antibody.

## Storage

Aliquot the CD81 antibody and store frozen at -20°C or colder. Avoid repeated freeze-thaw cycles.
