

# CYC1 Antibody / Cytochrome C1 (RQ8117)

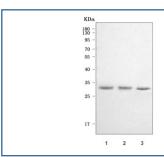

Catalog No.	Formulation	Size
RQ8117	0.5mg/ml if reconstituted with 0.2ml sterile DI water	100 ug

## **Bulk quote request**

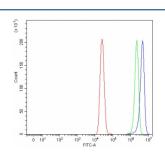

Availability	1-3 business days
Species Reactivity	Human
Format	Antigen affinity purified
Clonality	Polyclonal (rabbit origin)
Isotype	Rabbit IgG
Purity	Antigen affinity purified
Buffer	Lyophilized from 1X PBS with 2% Trehalose
UniProt	P08574
Localization	Cytoplasmic
Applications	Western Blot : 0.5-1ug/ml Immunofluorescence : 5ug/ml Flow Cytometry : 1-3ug/million cells Direct ELISA : 0.1-0.5ug/ml
Limitations	This CYC1 antibody is available for research use only.

Immunofluorescent staining of FFPE human A549 cells with CYC1 antibody (red) and DAPI nuclear stain (blue). HIER: steam section in pH6 citrate buffer for 20 min.

Western blot testing of human 1) A431, 2) HeLa and 3) MCF7 cell lysate with CYC1 antibody. Predicted molecular weight ~35 kDa.

Flow cytometry testing of fixed and permeabilized human MCF7 cells with CYC1 antibody at 1ug/million cells (blocked with goat sera); Red=cells alone, Green=isotype control, Blue= CYC1 antibody.

### **Description**

Cytochrome c1, heme protein, mitochondrial (CYC1), also known as UQCR4, MC3DN6, Complex III subunit 4, Cytochrome b-c1 complex subunit 4, or Ubiquinol-cytochrome-c reductase complex cytochrome c1 subunit is a protein that in humans is encoded by the CYC1 gene. This gene encodes a subunit of the cytochrome bc1 complex, which plays an important role in the mitochondrial respiratory chain by transferring electrons from the Rieske iron-sulfur protein to cytochrome c. Mutations in this gene may cause mitochondrial complex III deficiency, nuclear type 6.

#### **Application Notes**

Optimal dilution of the CYC1 antibody should be determined by the researcher.

#### **Immunogen**

E. coli-derived recombinant human protein (amino acids S85-K325) was used as the immunogen for the CYC1 antibody.

#### **Storage**

After reconstitution, the CYC1 antibody can be stored for up to one month at 4oC. For long-term, aliquot and store at -20oC. Avoid repeated freezing and thawing.
