This antibody reacts to recombinant proteins containing a DDDDK fused to either the amino or carboxy terminus. No cross reactivity with any endogenous protein.

Application Notes

The stated application concentrations are suggested starting points. Titration of the recombinant DDDDK Tag antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

Mixture of a peptide with DDDDK-Tag at the N-terminal and another peptide with DDDDK-Tag at the C-terminal was used as the immunogen for the DDDDK Tag antibody.

Storage

Store the recombinant DDDDK Tag antibody at -20oC.
