Description

Functions as a regulator of the BMP signaling pathway and may be involved in epidermal differentiation. [UniProt]

Application Notes

The stated application concentrations are suggested starting points. Titration of the Estrogen-induced gene 121-like protein antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A portion of amino acids 109-138 from the human protein was used as the immunogen for the Estrogen-induced gene 121-like protein antibody.

Storage

Aliquot the Estrogen-induced gene 121-like protein antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
