FSH beta Antibody [clone AFGI-6] (RQ4875)

Catalog No.	Formulation	Size
RQ4875	Antibody in PBS with 0.02% sodium azide, 50% glycerol and 0.4-0.5mg/ml BSA	100 ul

Bulk quote request

Availability	1-2 weeks
Species Reactivity	Human
Format	Purified
Host	Rabbit
Clonality	Rabbit Monoclonal
Isotype	Rabbit IgG
Clone Name	AFGI-6
Purity	Affinity purified
UniProt	P01225
Applications	Western Blot : 1:500-1:2000
Limitations	This FSH beta antibody is available for research use only.

FSH beta Antibody Pituitary WB. Western blot testing of human pituitary lysate with FSH beta antibody. Expected molecular weight: 17-23 kDa depending on level of glycosylation.

Description

The FSHB gene encodes the beta subunit of follicle-stimulating hormone. In conjunction with luteinizing hormone, follicle-stimulating hormone induces egg and sperm production. [RefSeq]

For additional reproductive hormone and pituitary signaling research antibodies targeting gonadotroph markers and endocrine-associated cellular pathways, explore the broader FSHB Antibody page featuring monoclonal clone FLTPb-1.

Application Notes

Optimal dilution of the FSH beta antibody should be determined by the researcher.

Immunogen

A synthetic peptide specific to human FSH beta was used as the immunogen for the FSH beta antibody.

Storage

Store the FSH beta antibody at -20oC.
