Description

Ubiquitous transcription factor required for a diverse set of processes. It is a component of the CCR4 complex involved in the control of gene expression (By similarity).

Application Notes

The stated application concentrations are suggested starting points. Titration of the Haptoglobin-related protein antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A portion of amino acids 212-240 from the human protein was used as the immunogen for the Haptoglobin-related protein antibody.

Storage

Aliquot the Haptoglobin-related protein antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
