Applications	Western blot: 1:1000
Limitations	This HES7 antibody is available for research use only.

Western blot analysis of HES7 antibody and mouse heart tissue lysate.

Description

HES7 is a member of the hairy and enhancer of split family of bHLH transcription factors. The protein functions as a transcriptional repressor, and is implicated in correct patterning of the axial skeleton.

Application Notes

Titration of the HES7 antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A portion of amino acids 26-55 from the human protein was used as the immunogen for this HES7 antibody.

Storage

Aliquot the HES7 antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
