Insulin Antibody rIRDN/8546 / Recombinant INS Antibody Mouse Monoclonal [clone rIRDN/8546] (V4156)

Catalog No.	Formulation	Size
V4156-100UG	0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide	100 ug
V4156-20UG	0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide	20 ug
V4156SAF-100UG	1 mg/ml in 1X PBS; BSA free, sodium azide free	100 ug

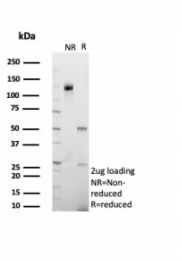

Recombinant | MOUSE MONOCLONAL

Bulk quote request

Availability	1-3 business days
Species Reactivity	Human
Format	Purified
Host	Mouse
Clonality	Recombinant Mouse Monoclonal
Isotype	Mouse IgG2a, kappa
Clone Name	rIRDN/8546
Purity	Protein A/G affinity
UniProt	P01308
Localization	Cytoplasm
Applications	Immunohistochemistry (FFPE): 0.1-0.2ug/ml (No special pretreatment is required for staining of FFPE tissue)
Limitations	This Insulin Antibody rIRDN/8546 / Recombinant INS Antibody Mouse Monoclonal is available for research use only.

Insulin Antibody rIRDN/8546 / Recombinant INS Antibody Mouse Monoclonal Immunohistochemistry. IHC staining of FFPE human pancreas tissue with Insulin antibody (clone rIRDN/8546). Inset: PBS used in place of primary Ab (secondary Ab negative control). HIER: boil tissue sections in pH 9 10mM Tris with 1mM EDTA for 20 min and allow to cool before testing.

SDS-PAGE analysis of purified, BSA-free Insulin antibody (clone rIRDN/8546) as confirmation of integrity and purity.

Description

Insulin Antibody rIRDN/8546 / Recombinant INS Antibody Mouse Monoclonal recognizes a polypeptide which is identified as insulin, a 51-amino acid polypeptide composed of A and B chains connected through the C-peptide. Proinsulin, which has very little biological activity, is cleaved by proteases within its cell of origin into the insulin molecule and the C-terminal basic residue. Insulin enhances membrane transport of glucose, amino acids, and certain ions. It also promotes glycogen storage, formation of triglycerides, and synthesis of proteins and nucleic acids. Deficiency of insulin results in diabetes mellitus. The main storage site for insulin is the pancreatic islets. Antibodies to insulin are important as beta-cell and insulinoma marker.

For a highly published insulin monoclonal with an alternate INS05 clone designation, see our Insulin Antibody 2D11-H5 / INS05 Antibody page.

Application Notes

Optimal dilution of the Insulin Antibody rIRDN/8546 / Recombinant INS Antibody Mouse Monoclonal should be determined by the researcher.

Immunogen

Recombinant full-length human Insulin protein was used as the immunogen for the Insulin Antibody rIRDN/8546.

Storage

Aliquot the Insulin Antibody rIRDN/8546 and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
