

Involucrin Antibody [clone SY-5] (R30046)

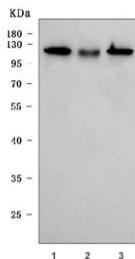

Catalog No.	Formulation	Size
R30046	0.5mg/ml with 1% BSA and 0.01% sodium azide if reconstituted with 0.2ml sterile 1XPBS	100 ug

[Bulk quote request](#)

Availability	1-3 business days
Species Reactivity	Human
Format	Ascites
Host	Mouse
Clonality	Monoclonal (mouse origin)
Isotype	Mouse IgG1
Clone Name	SY-5
Purity	Ascites
Gene ID	3713
Applications	Western Blot : 1-2ug/ml Immunohistochemistry (FFPE) : 0.5-1ug/ml Immunohistochemistry (Frozen) : 0.5-1ug/ml (formalin or acetone fixed tissues) Immunocytochemistry : Suitable
Limitations	This Involucrin antibody is available for research use only.

IHC staining of FFPE human lung cancer tissue with Involucrin antibody. HIER: boil tissue sections in pH8 EDTA for 20 min and allow to cool before testing.

Western blot testing of human 1) RT-4, 2) T-47D and 3) A431 cell lysate with Involucrin antibody. Predicted molecular weight ~68 kDa but can be observed at up to ~140 kDa.

Description

Involucrin is a keratinocyte protein that first appears in the cell cytosol, but ultimately becomes cross-linked to membrane proteins by transglutaminase. The gene consists of 585 amino acids, 390 of which form a central decapeptide repeat, rich in glutamine and glutamic acid. The involucrin gene, encoding a protein of the terminally differentiated keratinocyte, is polymorphic in the human. Involucrin has previously been mapped to chromosome 1q21. The epidermal protein involucrin has been remodeled in the higher primates. And the existence of two populations of East Asian involucrin alleles gives support for the existence of a Eurasian stem lineage from which Caucasians and a part of the Asian population originated.

Application Notes

The stated application concentrations are suggested starting amounts. Titration of the Involucrin antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

Human involucrin was used as the immunogen for this Involucrin antibody.

Storage

After reconstitution, the Involucrin antibody can be stored for up to one month at 4°C. For long-term, aliquot and store at -20°C. Avoid repeated freezing and thawing.
