

KCNA3 Antibody / Kv1.3 (R32012)

Catalog No.	Formulation	Size
R32012	0.5mg/ml if reconstituted with 0.2ml sterile DI water	100 ug

[Bulk quote request](#)

Availability	1-3 business days
Species Reactivity	Human, Mouse, Rat
Format	Antigen affinity purified
Host	Rabbit
Clonality	Polyclonal (rabbit origin)
Isotype	Rabbit IgG
Purity	Antigen affinity
Buffer	Lyophilized from 1X PBS with 2.5% BSA and 0.025% sodium azide
UniProt	P22001
Applications	Western Blot : 0.1-0.5ug/ml
Limitations	This KCNA3 antibody is available for research use only.

Western blot testing of 1) rat brain, 2) mouse brain, human 3) K562, 4) HeLa and 5) 22RV1 lysate with KCNA3 antibody. Expected molecular weight ~64 kDa, observed here at ~55 kDa.

Description

Potassium voltage-gated channel, shaker-related subfamily, member 3, also known as KCNA3 or Kv1.3, is a protein that in humans is encoded by the KCNA3 gene. This gene encodes a member of the potassium channel, voltage-gated, shaker-related subfamily. This member contains six membrane-spanning domains with a shaker-type repeat in the fourth segment. It belongs to the delayed rectifier class, members of which allow nerve cells to efficiently repolarize following an action potential. It plays an essential role in T-cell proliferation and activation. This gene appears to be intronless and it is clustered together with KCNA2 and KCNA10 genes on chromosome 1. And Kv1.3 has been reported to be expressed in the inner mitochondrial membrane in lymphocytes. The apoptotic protein Bax has been suggested to insert into the outer

mitochondrial membrane and occlude the pore of Kv1.3 via a lysine residue. Thus, Kv1.3 modulation may be one of many mechanisms that contribute to apoptosis.

Application Notes

Optimal dilution of the KCNA3 antibody should be determined by the researcher.

Immunogen

Amino acids EELRKARSNSTLSKSEYMVIEEGGMNHSAFPQ of human KCNA3 were used as the immunogen for the KCNA3 antibody.

Storage

After reconstitution, the KCNA3 antibody can be stored for up to one month at 4°C. For long-term, aliquot and store at -20°C. Avoid repeated freezing and thawing.
