

# MART-1 Antibody / Melan-A [clone MLANA/8108R] (V5288)

Catalog No.	Formulation	Size
V5288-100UG	0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide	100 ug
V5288-20UG	0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide	20 ug
V5288SAF-100UG	1 mg/ml in 1X PBS; BSA free, sodium azide free	100 ug

### Recombinant RABBIT MONOCLONAL

#### **Bulk quote request**

Availability	1-3 business days
Species Reactivity	Human
Format	Purified
Clonality	Recombinant Rabbit Monoclonal
Isotype	Rabbit IgG, kappa
Clone Name	MLANA/8108R
Purity	Protein A/G affinity
UniProt	Q16655
Localization	Cytoplasm
Applications	Immunohistochemistry (FFPE) : 1-2ug/ml for 30 min at RT Western Blot : 2-4ug/ml
Limitations	This MART-1 antibody is available for research use only.

Western blot testing of human COLO-38 cell lysate with recombinant MART-1 antibody (clone MLANA/8108R). Expected molecular weight ~20 kDa with possible doublet.

IHC staining of FFPE human skin tissue with MART-1 antibody (clone MLANA/8108R). HIER: boil tissue sections in pH 9 10mM Tris with 1mM EDTA for 20 min and allow to cool before testing.

SDS-PAGE analysis of purified, BSA-free recombinant MART-1 antibody (clone MLANA/8108R) as confirmation of integrity and purity.

## **Description**

This antibody recognizes a protein doublet of 20-22kDa, identified as MART-1 (Melanoma Antigen Recognized by T cells 1) or Melan-A. MART-1 is a newly identified melanocyte differentiation antigen recognized by autologous cytotoxic T lymphocytes. Seven other melanoma associated antigens recognized by autologous cytotoxic T cells include MAGE-1, MAGE-3, tyrosinase, gp100, gp75, BAGE-1, and GAGE-1. Subcellular fractionation shows that MART-1 is present in melanosomes and endoplasmic reticulum. This mAb labels melanomas and other tumors showing melanocytic differentiation. It is also a useful positive-marker for angiomyolipomas. It does not stain tumor cells of epithelial, lymphoid, glial, or mesenchymal origin.

# **Application Notes**

Optimal dilution of the MART-1 antibody should be determined by the researcher.

#### Immunogen

A recombinant fragment corresponding to the N-terminus of human Melan A protein was used as the immunogen for the MART-1 antibody.

#### **Storage**

Aliquot the MART-1 antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
