Description

Myelin Basic Protein is a major constituent of the myelin sheath of oligodendrocytes and Schwann cells in the nervous system.

For broader research on myelin structure and MBP expression, see our Myelin Basic Protein Antibody / CNS Myelin Marker page.

Application Notes

Titration of the MBP antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A portion of amino acids 177-209 from the human protein was used as the immunogen for this MBP antibody.

Storage

Store at 4oC for up to one month. For long term, aliquot the MBP antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
