

# Mip-1 alpha Antibody / Ccl3 (RQ7064)

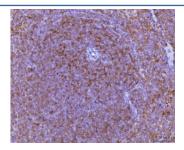

| Catalog No. | Formulation   | Size   |
|-------------|---|--------|
| RQ7064      | 0.5mg/ml if reconstituted with 0.2ml sterile DI water | 100 ug |

# **Bulk quote request**

| Availability       | 1-3 business days  |
|--------------------|--|
| Species Reactivity | Mouse, Rat   |
| Format             | Antigen affinity purified  |
| Clonality          | Polyclonal (rabbit origin)   |
| Isotype            | Rabbit IgG   |
| Purity             | Antigen affinity purified  |
| Buffer             | Lyophilized from 1X PBS with 2% Trehalose                          |
| UniProt            | P10855   |
| Applications       | Immunohistochemistry (FFPE) : 2-5ug/ml Direct ELISA : 0.1-0.5ug/ml |
| Limitations        | This Mip-1 alpha antibody is available for research use only.      |

IHC staining of FFPE rat spleen tissue with Mip-1 alpha antibody. HIER: boil tissue sections in pH8 EDTA for 20 min and allow to cool before testing.

IHC staining of FFPE mouse spleen tissue with Mip-1 alpha antibody. HIER: boil tissue sections in pH8 EDTA for 20 min and allow to cool before testing.

#### **Description**

Macrophage inflammatory protein-1 alpha (MIP-1 alpha), also called CCL3 and LD78, is a member of a superfamily of small inducible proteins involved in inflammatory responses, wound healing and tumorigenesis. It is a chemokine that has pro-inflammatory and stem cell inhibitory activities in vitro. It constitutes an important second signal for mast cell degranulation in the conjunctiva in vivo and consequently for acute-phase disease.

#### **Application Notes**

Optimal dilution of the Mip-1 alpha antibody should be determined by the researcher.

## **Immunogen**

Recombinant mouse protein (amino acids A24-A92) was used as the immunogen for the Mip-1 alpha antibody.

## **Storage**

After reconstitution, the Mip-1 alpha antibody can be stored for up to one month at 4oC. For long-term, aliquot and store at -20oC. Avoid repeated freezing and thawing.
