

## NAP-2 Antibody / CXCL7 / PPBP (R31872)

| Catalog No. | Formulation   | Size   |
|-------------|---|--------|
| R31872      | 0.5mg/ml if reconstituted with 0.2ml sterile DI water | 100 ug |

**Bulk quote request**

|                           |  |
|---------------------------|--|
| <b>Availability</b>       | 1-3 business days  |
| <b>Species Reactivity</b> | Human  |
| <b>Format</b>             | Antigen affinity purified  |
| <b>Host</b>               | Rabbit   |
| <b>Clonality</b>          | Polyclonal (rabbit origin)   |
| <b>Isotype</b>            | Rabbit IgG   |
| <b>Purity</b>             | Antigen affinity   |
| <b>Buffer</b>             | Lyophilized from 1X PBS with 2.5% BSA and 0.025% sodium azide  |
| <b>UniProt</b>            | P02775   |
| <b>Localization</b>       | Secreted   |
| <b>Applications</b>       | Western Blot : 0.1-0.5ug/ml<br>IHC (FFPE) : 0.5-1ug/ml<br>ELISA : 0.1-0.5ug/ml (human protein tested); request BSA-free format for coating |
| <b>Limitations</b>        | This NAP-2 antibody is available for research use only.  |

Western blot testing of human MCF7 cell lysate with NAP-2 antibody. Predicted molecular weight: 8~14 kDa.

IHC testing of FFPE human placenta with NAP-2 antibody. HIER: Boil the paraffin sections in pH 6, 10mM citrate buffer for 20 minutes and allow to cool prior to staining.

## Description

Chemokine (C-X-C motif) ligand 7 (CXCL7), also known as NAP-2 or Pro-Platelet basic protein (PPBP), is a human gene. The protein encoded by this gene is a platelet-derived growth factor that belongs to the CXC chemokine family. This growth factor is a potent chemoattractant and activator of neutrophils. It has been shown to stimulate various cellular processes including DNA synthesis, mitosis, glycolysis, intracellular cAMP accumulation, prostaglandin E2 secretion, and synthesis of hyaluronic acid and sulfated glycosaminoglycan. It also stimulates the formation and secretion of plasminogen activator by synovial cells. Furthermore, the protein is an antimicrobial protein with bactericidal and antifungal activity.

## Application Notes

Optimal dilution of the NAP-2 antibody should be determined by the researcher.

## Immunogen

Amino acids 55-128 of human CXCL7 (the NAP-2 chain) were used as the immunogen for the NAP-2 antibody.

## Storage

After reconstitution, the NAP-2 antibody can be stored for up to one month at 4°C. For long-term, aliquot and store at -20°C. Avoid repeated freezing and thawing.
