

## NOX5 Antibody (R31049)

Catalog No.	Formulation	Size
R31049	0.5mg/ml if reconstituted with 0.2ml sterile DI water	100 ug

[Bulk quote request](#)

<b>Availability</b>	1-3 business days
<b>Species Reactivity</b>	Human
<b>Format</b>	Antigen affinity purified
<b>Host</b>	Rabbit
<b>Clonality</b>	Polyclonal (rabbit origin)
<b>Isotype</b>	Rabbit IgG
<b>Purity</b>	Antigen affinity
<b>Buffer</b>	Lyophilized from 1X PBS with 2.5% BSA and 0.025% sodium azide/thimerosal
<b>UniProt</b>	Q96PH1
<b>Applications</b>	Western Blot : 0.5-1ug/ml IHC (FFPE) : 0.5-1ug/ml Immunocytochemistry : 0.5-1ug/ml
<b>Limitations</b>	This NOX5 antibody is available for research use only.

Western blot testing of NOX5 antibody and Lane 1: 22RV1; 2: PANC; 3: HeLa; 4: SKOV. Expected/observed molecular weight: ~86 kDa.

IHC-P: NOX5 antibody testing of human breast cancer tissue

ICC testing of NOX5 antibody and HeLa cells

## Description

NADPH Oxidase 5, also known as NOX5A or NOX5B, is a protein which in humans is encoded by the NOX5 gene. It is a NADPH oxidase that generates superoxide and functions as an H<sup>+</sup> channel in a Ca<sup>2+</sup>-dependent manner. Banfi et al.(2001) found that, when heterologously expressed, NOX5 was quiescent in unstimulated cells. However, in response to elevations of the cytosolic Ca<sup>2+</sup> concentration, it generated large amounts of superoxide. Using RT-PCR and Southern and Western blot analyses, Kamiguti et al.(2005) identified NOX5 as a flavin-containing Ca<sup>2+</sup>-dependent oxidase present in hairy leukemic cells(HC), but not normal B cells.

## Application Notes

The stated application concentrations are suggested starting amounts. Titration of the NOX5 antibody may be required due to differences in protocols and secondary/substrate sensitivity.

## Immunogen

An amino acid sequence from the C-terminus of human NADPH Oxidase 5 (KVLKGGHCEKFGFRFFQENF) was used as the immunogen for this NOX5 antibody.

## Storage

After reconstitution, the NOX5 antibody can be stored for up to one month at 4oC. For long-term, aliquot and store at -20oC. Avoid repeated freezing and thawing.
