| **Limitations** | This Palladin antibody is available for research use only. |

Western blot testing of human umbillical cord lysate with Palladin antibody at 0.1ug/ml. This protein has multiple isoforms from 65-200 kDa with doublets often observed due to distinct isoforms and phosphorylation states. Both observed bands are blocked by addition of immunizing peptide.

## Description

Additional name(s) for this target protein: PALLD

## Application Notes

Optimal dilution of the Palladin antibody should be determined by the researcher.

## Immunogen

Amino acids RDSGDENEPIQER were used as the immunogen for this Palladin antibody.

## Storage

Aliquot and store the Palladin antibody at -20oC.
