

Phospho-c-Jun Antibody (pS63) [clone IGA-10] (RQ5123)

| Catalog No. | Formulation | Size |
|-------------|--|--------|
| RQ5123 | Antibody in PBS with 0.02% sodium azide, 50% glycerol and 0.4-0.5mg/ml BSA | 100 ul |

|--------------------|--|
| Availability | 1-2 weeks |
| Species Reactivity | Human, Mouse |
| Format | Purified |
| Clonality | Rabbit Monoclonal |
| Isotype | Rabbit IgG |
| Clone Name | IGA-10 |
| Purity | Affinity purified |
| UniProt | P05412 |
| Applications | Western Blot : 1:500-1:2000 |
| Limitations | This phospho-c-Jun antibody (pS63) is available for research use only. |

Western blot testing of lysate from Anisomycin-treated mouse NIH3T3 cells, with phospho-c-Jun antibody (pS63). Predicted molecular weight ~36 kDa.

Description

This gene is the putative transforming gene of avian sarcoma virus 17. It encodes a protein which is highly similar to the viral protein, and which interacts directly with specific target DNA sequences to regulate gene expression.[RefSeq]

Application Notes

Optimal dilution of the phospho-c-Jun antibody (pS63) should be determined by the researcher.

Immunogen

A synthetic peptide specific to human Jun (surrounding phosphorylated S63) was used as the immunogen for the phospho-c-Jun antibody.

Storage

Store the phospho-c-Jun antibody (pS63) at -20oC.
