

Phospho-Minichromosome maintenance 2 Antibody pS108 [clone 28M76] (RQ8513)

| Catalog No. | Formulation | Size |
|-------------|--|--------|
| RQ8513 | Antibody in PBS with 0.02% sodium azide, 50% glycerol and 0.4-0.5mg/ml BSA | 100 ul |

Recombinant **RABBIT MONOCLONAL**

| | |
|--------------------|--|
| Availability | 1-3 days |
| Species Reactivity | Human |
| Format | Purified |
| Host | Rabbit |
| Clonality | Recombinant Rabbit Monoclonal |
| Isotype | Rabbit IgG |
| Clone Name | 28M76 |
| Purity | Affinity chromatography |
| UniProt | P49736 |
| Applications | Western Blot : 1:500-1:2000 |
| Limitations | This phospho-Minichromosome maintenance 2 antibody is available for research use only. |

Western blot testing of lysate from 1) human HeLa cells and 2) human HeLa cells treated with alkaline phosphatase, using phospho-MCM2 antibody.

Description

Acts as a component of the MCM2-7 complex (MCM complex) which is the replicative helicase essential for 'once per cell cycle' DNA replication initiation and elongation in eukaryotic cells. Core component of CDC45-MCM-GINS (CMG) helicase, the molecular machine that unwinds template DNA during replication, and around which the replisome is built. [UniProt]

Application Notes

Optimal dilution of the phospho-Minichromosome maintenance 2 antibody should be determined by the researcher.

Immunogen

A synthetic peptide from the sequence surrounding phosphorylated serine 108 of human MCM2 protein was used as the immunogen for the phospho-Minichromosome maintenance 2 antibody.

Storage

Store the phospho-Minichromosome maintenance 2 antibody at -20oC.
