Description

This antibody reacts to human JNK1, JNK2, and JNK3 only when phosphorylated at Thr183 and Tyr185.

Application Notes

The stated application concentrations are suggested starting points. Titration of the recombinant phosphorylated JNK antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A phospho-peptide corresponding to human Phospho-JNK1/2/3 (Thr183/Tyr185) was used as the immunogen for the recombinant phosphorylated JNK antibody.

Storage

Store the recombinant phosphorylated JNK antibody at -20°C.
