

## Ppp1r15a Antibody / Gadd34 (RQ7322)

Catalog No.	Formulation	Size
RQ7322	0.5mg/ml if reconstituted with 0.2ml sterile DI water	100 ug

[Bulk quote request](#)

<b>Availability</b>	1-3 business days
<b>Species Reactivity</b>	Mouse
<b>Format</b>	Antigen affinity purified
<b>Host</b>	Rabbit
<b>Clonality</b>	Polyclonal (rabbit origin)
<b>Isotype</b>	Rabbit IgG
<b>Purity</b>	Antigen affinity purified
<b>Buffer</b>	Lyophilized from 1X PBS with 2% Trehalose
<b>UniProt</b>	P17564
<b>Applications</b>	Western Blot : 0.5-1ug/ml Flow Cytometry : 1-3ug/million cells Direct ELISA : 0.1-0.5ug/ml
<b>Limitations</b>	This Ppp1r15a antibody is available for research use only.

Flow cytometry testing of mouse ANA-1 cells with Ppp1r15a antibody at 1ug/million cells (blocked with goat sera); Red=cells alone, Green=isotype control, Blue= Ppp1r15a antibody.

Western blot testing of mouse stomach tissue lysate with Ppp1r15a antibody. Predicted molecular weight ~73 kDa, but commonly observed as up to ~110 kDa.

## Description

Protein phosphatase 1 regulatory subunit 15A also known as growth arrest and DNA damage-inducible protein GADD34 is a protein that in humans is encoded by the PPP1R15A gene. Enables protein phosphatase binding activity and protein phosphatase regulator activity. Involved in several processes, including peptidyl-serine dephosphorylation; regulation of gene expression; and regulation of protein modification process. Acts upstream of or within endoplasmic reticulum unfolded protein response. Predicted to be located in several cellular components, including Golgi apparatus; cytosol; and mitochondrion. Predicted to be part of protein phosphatase type 1 complex. Predicted to be active in endoplasmic reticulum. Is expressed in several structures, including central nervous system; genitourinary system; gut; hemolymphoid system gland; and liver. Used to study thalassemia. Orthologous to human PPP1R15A (protein phosphatase 1 regulatory subunit 15A).

## Application Notes

Optimal dilution of the Ppp1r15a antibody should be determined by the researcher.

## Immunogen

Recombinant mouse protein (amino acids R14-R572) was used as the immunogen for the Ppp1r15a antibody.

## Storage

After reconstitution, the Ppp1r15a antibody can be stored for up to one month at 4oC. For long-term, aliquot and store at -20oC. Avoid repeated freezing and thawing.
