

## Recombinant HA Tag Antibody [clone RM305] (R20304)

Catalog No.	Formulation	Size
R20304-100UG	1 mg/ml in PBS with 50% glycerol, 1% BSA and 0.09% sodium azide	100 ug

Recombinant **RABBIT MONOCLONAL**

[Bulk quote request](#)

Availability	1-3 business days
Species Reactivity	NA
Format	Purified
Host	Rabbit
Clonality	Recombinant Rabbit Monoclonal
Isotype	Rabbit IgG
Clone Name	RM305
Purity	Protein A purified from animal origin-free supernatant
UniProt	N/A
Applications	Western Blot : 0.1 ug/ml-1 ug/ml Immunoprecipitation : 0.5 ug/ml-2 ug/ml Immunocytochemistry : 0.1 ug/ml-1 ug/ml Immunohistochemistry : 0.1 ug/ml-0.5 ug/ml
Limitations	This recombinant HA Tag antibody is available for research use only.

Western blot testing of recombinant HA Tag antibody (0.1ug/ml) with lysate from HEK293 cells transfected (+) or untransfected (-) with an HA-tag KRas DNA construct.

IHC staining of formalin fixed and paraffin embedded human LNCaP cells overexpressing HA-tag Bag1 protein, using HA-Tag antibody at 0.01 ug/ml.

## Description

This antibody reacts to recombinant proteins containing a HA-Tag fused to either the amino or carboxy terminus. No cross reactivity with other endogenous protein.

## Application Notes

The stated application concentrations are suggested starting points. Titration of the recombinant HA Tag antibody may be required due to differences in protocols and secondary/substrate sensitivity.

## Immunogen

A peptide corresponding to HA-tag (Human influenza hemagglutinin amino acids 98-106) was used as the immunogen for the recombinant HA Tag antibody.

## Storage

Store the recombinant HA Tag antibody at -20oC.
