

## Recombinant Tumor Protein 53 Antibody / p53 [clone TP53/8183R] (V5803)

Catalog No.	Formulation	Size
V5803-100UG	0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide	100 ug
V5803-20UG	0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide	20 ug
V5803SAF-100UG	1 mg/ml in 1X PBS; BSA free, sodium azide free	100 ug

Recombinant **RABBIT MONOCLONAL**

[Bulk quote request](#)

Availability	1-3 business days
Species Reactivity	Human
Format	Purified
Host	Rabbit
Clonality	Recombinant Rabbit Monoclonal
Isotype	Rabbit IgG, kappa
Clone Name	TP53/8183R
Purity	Protein A affinity
UniProt	P04637
Localization	Nucleus
Applications	Immunohistochemistry (FFPE) : 1-2ug/ml
Limitations	This recombinant Tumor Protein 53 antibody is available for research use only.

IHC staining of FFPE human ovarian carcinoma tissue with recombinant Tumor Protein 53 antibody (clone TP53/8183R). Inset: PBS used in place of primary Ab (secondary Ab negative control). HIER: boil tissue sections in pH 9 10mM Tris with 1mM EDTA for 20 min and allow to cool before testing.

SDS-PAGE analysis of purified, BSA-free recombinant Tumor Protein 53 antibody (clone TP53/8183R) as confirmation of integrity and purity.

## Description

p53 is a tumor suppressor gene expressed in a wide variety of tissue types and is involved in regulating cell growth, replication, and apoptosis. It binds to MDM2, SV40 T antigen and human papilloma virus E6 protein. Positive nuclear staining with p53 antibody has been reported to be a negative prognostic factor in breast carcinoma, lung carcinoma, colorectal, and urothelial carcinoma. Anti-p53 positivity has also been used to differentiate uterine serous carcinoma from endometrioid carcinoma as well as to detect intratubular germ cell neoplasia. Mutations involving p53 are found in a wide variety of malignant tumors, including breast, ovarian, bladder, colon, lung, and melanoma.

## Application Notes

Optimal dilution of the recombinant Tumor Protein 53 antibody should be determined by the researcher.

## Immunogen

A recombinant human full-length TP53 protein was used as the immunogen for the recombinant Tumor Protein 53 antibody.

## Storage

Aliquot the recombinant Tumor Protein 53 antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
