Description

RICTOR and MTOR (FRAP1) are components of a protein complex that integrates nutrient- and growth factor-derived signals to regulate cell growth.

Application Notes

Titration of the RICTOR antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A portion of amino acids 1617-1650 from the human protein was used as the immunogen for this RICTOR antibody.

Storage

Aliquot the RICTOR antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
