SATB2 Antibody [clone RM365] (R20384)

Catalog No.	Formulation	Size
R20384-0.1ML	Antibody in PBS with 50% glycerol, 1% BSA and 0.09% sodium azide	100 ul

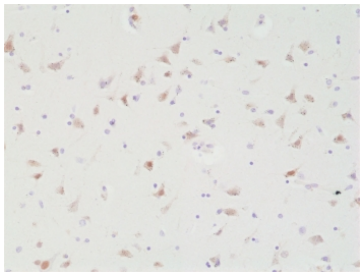

Recombinant RABBIT MONOCLONAL

Bulk quote request

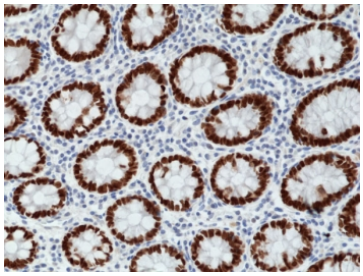

Availability	1-3 business days
Species Reactivity	Human
Format	Purified
Host	Rabbit
Clonality	Recombinant Rabbit Monoclonal
Isotype	Rabbit IgG
Clone Name	RM365
Purity	Protein A purified from animal origin-free supernatant
UniProt	Q9UPW6
Localization	Nuclear
Applications	Immunohistochemistry (FFPE): 1:200-1:1000 Western blot: 1:1000-1:2000
Limitations	This recombinant SATB2 antibody is available for research use only.

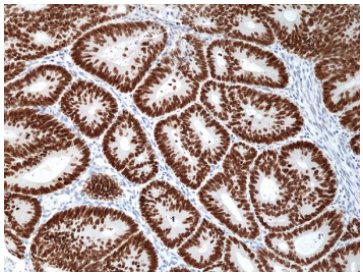

SATB2 Antibody K562 Cell WB. Western blot testing of human K562 cell lysate with recombinant SATB2 antibody at 1:1000 dilution. Predicted molecular weight ~83 kDa.

SATB2 Antibody Brain Immunohistochemistry. IHC staining of FFPE human brain tissue with recombinant SATB2 antibody at 1:200.

SATB2 Antibody Colon Immunohistochemistry. IHC staining of FFPE human colon tissue with recombinant SATB2 antibody at 1:1000.

SATB2 Antibody Colon Cancer Immunohistochemistry. IHC staining of FFPE human colon cancer tissue with recombinant SATB2 antibody at 1:1000.

Description

SATB2 Antibody specifically reacts with human DNA-binding protein SATB2.

Researchers investigating colorectal tumor markers, epithelial lineage determination, and chromatin-associated transcriptional regulation may also be interested in our SATB2 Antibody / Colorectal and Lineage Marker page featuring validated immunohistochemistry and western blot applications for colorectal pathology research.

Application Notes

The stated application concentrations are suggested starting points. Titration of the recombinant SATB2 antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A peptide corresponding to the C-terminus of human DNA-binding protein SATB2 was used as the immunogen for the recombinant SATB2 antibody.

Storage

Store the recombinant SATB2 antibody at -20oC.
