

# Semaphorin 6A Antibody / SEMA6A (RQ5921)

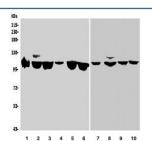

Catalog No.	Formulation	Size
RQ5921	0.5mg/ml if reconstituted with 0.2ml sterile DI water	100 ug

## **Bulk quote request**

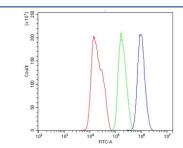

Availability	1-3 business days
Species Reactivity	Human, Mouse, Rat
Format	Antigen affinity purified
Clonality	Polyclonal (rabbit origin)
Isotype	Rabbit IgG
Purity	Affinity purified
Buffer	Lyophilized from 1X PBS with 2% Trehalose and 0.025% sodium azide
UniProt	Q9H2E6
Applications	Western Blot : 0.5-1ug/ml Immunohistochemistry : 1-2ug/ml Flow Cytometry : 1-3ug/million cells Direct ELISA : 0.1-0.5ug/ml
Limitations	This Semaphorin 6A antibody is available for research use only.

IHC staining of FFPE human rectal cancer with Semaphorin 6A antibody. HIER: boil tissue sections in pH8 EDTA for 20 min and allow to cool before testing.

Western blot testing of human 1) HEK293, 2) HeLa, 3) Raji, 4) U-2 OS, 5) Jurkat, 6) Caco-2, 7) rat brain, 8) rat PC-12, 9) mouse brain and 10) mouse RAW264.7 with Semaphorin 6A antibody. Predicted molecular weight ~114 kDa.

Flow cytometry testing of human HepG2 cells with Semaphorin 6A antibody at 1ug/million cells (blocked with goat sera); Red=cells alone, Green=isotype control, Blue=SEMA6A antibody.

#### **Description**

SEMA6A belongs to a subfamily characterized by an extracellular semaphorin domain, a transmembrane domain, and a long cytoplasmic tail. Members of this class can repel sympathetic and dorsal root ganglion axons in vitro, consistent with a traditional role as guidance signals. However, the length of the cytoplasmic tail, which includes an EVL-binding site in SEMA6A and an Src-binding site in SEMA6B, suggests that these semaphorins may also function as receptors. SEMA6A is expressed in developing neural tissue and is required for proper development of the thalamocortical projection. SEMA6A directly links the Ena/VASP and the semaphorin protein families since the SEMA6A protein is capable of selective binding to the protein EVL (Ena/VASP-like protein).

## **Application Notes**

Optimal dilution of the Semaphorin 6A antibody should be determined by the researcher.

#### **Immunogen**

Recombinant human protein (amino acids H31-N306) was used as the immunogen for the Semaphorin 6A antibody.

## **Storage**

After reconstitution, the Semaphorin 6A antibody can be stored for up to one month at 4oC. For long-term, aliquot and store at -20oC. Avoid repeated freezing and thawing.
