Description

Suprabasin (SBSN) is a 247 amino acid secreted protein that is upregulated in differentiating keratinocytes and is though to play a role in epidermal differentiation.

Application Notes

Optimal dilution of the Suprabasin antibody should be determined by the researcher.

Immunogen

A recombinant fragment of the human protein was used as the immunogen for the Suprabasin antibody.

Storage

Aliquot the Suprabasin antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
