|----------------------|---------------------------------------------------------------|
| Availability         | 1-3 business days                                             |
| Species Reactivity   | Human                                                         |
| Predicted Reactivity | Cat, Cow, Dog, Pig                                            |
| Format               | Antigen affinity purified                                     |
| Host                 | Goat                                                          |
| Clonality            | Polyclonal (goat origin)                                      |
| Isotype              | Goat Ig                                                       |
| Purity               | Antigen affinity                                              |
| Gene ID              | 332                                                           |
| Applications         | Western Blot : 0.01-0.5ug/ml<br>ELISA (peptide) LOD : 1:16000 |
| Limitations          | This Survivin antibody is available for research use only.    |

Western blot testing of MOLT4 lysate with Survivin antibody at 0.01ug/ml. Predicted molecular weight ~16kDa.

## Description

Additional name(s) for this target protein: Baculoviral IAP repeat-containing 5; BIRC5

## Application Notes

Optimal dilution of the Survivin antibody should be determined by the researcher.

1. This Survivin antibody is specific to isoforms 1 & 3.

## **Immunogen**

Amino acids CVRRAIEQLAAMD were used as the immunogen for this Survivin antibody.

## **Storage**

Aliquot and store the Survivin antibody at -20°C.
