TBR1 Antibody (F45920)

Catalog No.	Formulation	Size
F45920-0.4ML	In 1X PBS, pH 7.4, with 0.09% sodium azide	0.4 ml
F45920-0.08ML	In 1X PBS, pH 7.4, with 0.09% sodium azide	0.08 ml

Bulk quote request

Availability	1-3 business days
Species Reactivity	Human, Mouse
Format	Antigen affinity purified
Host	Rabbit
Clonality	Polyclonal (rabbit origin)
Isotype	Rabbit Ig
Purity	Antigen affinity
UniProt	Q16650
Applications	Western blot: 1:1000
Limitations	This TBR1 antibody is available for research use only.

TBR1 antibody western blot analysis in mouse bladder tissue lysate

Description

This gene is a member of a conserved family of genes that share a common DNA-binding domain, the T-box. T-box genes encode transcription factors involved in the regulation of developmental processes. A similar protein has been disrupted in mice and shown to be critical for early cortical development, and causes loss of projection neurons in the olfactory bulbs and olfactory cortex. The C-terminal region this similar protein was found to be necessary and sufficient for association with the guanylate kinase domain of calcium/calmodulin-dependent serine protein kinase. [provided by RefSeq].

Application Notes

Titration of the TBR1 antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A portion of amino acids 52-80 from the human protein was used as the immunogen for this TBR1 antibody.

Storage

Aliquot the TBR1 antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
