Western blot testing of human 1) RT4, 2) Jurkat and 3) MOLT4 cell lysate with TM7SF3 antibody. Predicted molecular weight ~64 kDa but may be observed at higher molecular weights due to glycosylation.

Description

Involved in cellular response to unfolded protein; negative regulation of programmed cell death; and positive regulation of insulin secretion. Located in plasma membrane.

Application Notes

Optimal dilution of the TM7SF3 antibody should be determined by the researcher.

Immunogen

E. coli-derived recombinant human protein (amino acids R102-R544) was used as the immunogen for the TM7SF3 antibody.

Storage

After reconstitution, the TM7SF3 antibody can be stored for up to one month at 4oC. For long-term, aliquot and store at -20oC. Avoid repeated freezing and thawing.
