

TNFAIP2 Antibody (N1061)

Catalog No.	Formulation	Size
N1061-100UG	0.5 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide	100 ug
N1061-25UG	0.5 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide	25 ug

[Bulk quote request](#)

Species Reactivity	Human
Format	Purified
Host	Rabbit
Clonality	Polyclonal (rabbit origin)
Isotype	Rabbit IgG
Purity	Protein A affinity chromatography
Buffer	1X PBS, pH 7.4
Gene ID	7127
Applications	Western Blot : 4-8ug/ml
Limitations	This TNFAIP2 antibody is available for research use only.

Western blot testing of human samples with TNFAIP2 antibody at 4ug/ml.

Description

TNFAIP2 tumor necrosis factor, alpha-induced protein 2 was originally referred to as B94, a TNF α primary response gene expressed in endothelial cells. It has subsequently been found to be involved with a number of different cancers. It is a promoter of nasopharyngeal cancer cell migration and has a genetic variant associated with head and neck cancer susceptibility. The aberrant expression of TNFAIP2 in the malignant cells of Hodgkin lymphoma and primary thymic large B-cell lymphoma may serve as a marker to distinguish them from other large B-cell lymphomas.

Application Notes

Provided assay concentrations are suggestions only, TNFAIP2 antibody titration may be required for optimal results.

Immunogen

A recombinant protein fragment from the internal region of TNFAIP2 was used as the immunogen for this antibody.

Storage

Aliquot the TNFAIP2 antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.

Alternate Names

Tumor necrosis factor alpha induced protein 2, B94
