Description

Additional name(s) for this target protein: Tripartite motif-containing 28, KRAB-associated protein 1 (KAPI), TIF1 beta

TRIM28, also known as KAP1 and TIF1-beta, functions as a transcriptional corepressor involved in chromatin

organization, gene silencing, and DNA damage responses. Researchers investigating this nuclear regulatory protein can also explore our TRIM28 Antibody page, which features complementary polyclonal antibody data, including knockout-validated western blot analysis.

Application Notes

Optimal dilution of the TRIM28 Goat Polyclonal Antibody should be determined by the researcher.

Immunogen

Amino acids SSQELSGGPGDGP were used as the immunogen for this TRIM28 antibody.

Storage

Aliquot and store the TRIM28 antibody at -20oC.
