## Description

VE-Cadherin is a classic cadherin, imparting to cells the ability to adhere in a homophilic manner. The protein may play an important role in endothelial cell biology through control of the cohesion and organization of the intercellular junctions and in maintaining newly formed vessels.

## Application Notes

The stated application concentrations are suggested starting points. Titration of the VE Cadherin antibody may be required due to differences in protocols and secondary/substrate sensitivity.

## Immunogen

Amino acids 766-784 (RFKMLAELYGSDPREELLY-human) were used as the immunogen for this VE Cadherin antibody.

## Storage

After reconstitution, the VE Cadherin antibody can be stored for up to one month at 4°C. For long-term, aliquot and store at -20°C. Avoid repeated freezing and thawing.
