

Zebrafish Beta actin Antibody / Actba (F52293)

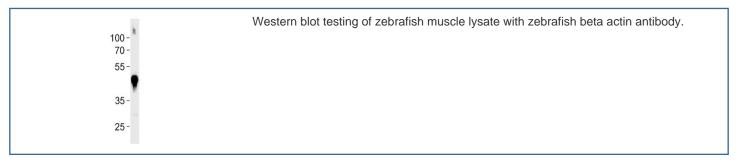

Catalog No.	Formulation	Size
F52293-0.4ML	In 1X PBS, pH 7.4, with 0.09% sodium azide	0.4 ml
F52293-0.08ML	In 1X PBS, pH 7.4, with 0.09% sodium azide	0.08 ml

Availability	1-3 business days	
Species Reactivity	Zebrafish	
Predicted Reactivity	Bovine, C. elegans, Chicken, Drosophila, Human, Mouse, Rabbit, Rat, Xenopus	
Format	Antigen affinity purified	
Clonality	Polyclonal (rabbit origin)	
Isotype	Rabbit Ig	
Purity	Antigen affinity	
UniProt	Q7ZVI7	
Applications	Western Blot: 1:1000	
Limitations	This zebrafish beta actin antibody is available for research use only.	

Description

Actins are highly conserved proteins that are involved in various types of cell motility and are ubiquitously expressed in all eukaryotic cells. Expression of beta Actin is strongest in lymph tissues with weaker expression seen in muscle and heart.

Application Notes

Titration of the zebrafish beta actin antibody may be required due to differences in protocols and secondary/substrate sensitivity.

Immunogen

A portion of amino acids 188-215 from the zebrafish actba protein was used as the immunogen for this beta actin antibody.

Storage

Aliquot the zebrafish beta actin antibody and store frozen at -20oC or colder. Avoid repeated freeze-thaw cycles.
